### **DETAILED ACTION**

This is the first non-final office action in response to Applicant's submission filed on 08/06/2003. Currently, claims 1-24 are pending.

#### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-12 and 23-24, drawn to an interface, medium and system for a selectable graphical interface, classified in class 705, subclass 10.
  - II. Claims 13-22, drawn to method and device for determining preference information associated with a respondent and product, classified in class 705, subclass 10.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions (I) and (II) are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination (I) has separate utility such as to collect any form of research data, as claimed it is not necessarily limited to the use of classification, rank, relative importance or a value associated with a product. See MPEP § 806.05(d).

The examiner has required restriction between subcombinations usable together. Where applicant elects a subcombination and claims thereto are subsequently found allowable, any claim(s) depending from or otherwise requiring all the limitations of the allowable subcombination will be examined for patentability in accordance with 37 CFR

1.104. See MPEP § 821.04(a). Applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Folashade Anderson whose telephone number is (571) 270-3331. The examiner can normally be reached on Monday through Thursday 8:00 am to 5:00 pm EST.
